LECTURES OF L. RON HUBBARD

This book lists the greatest collection of the understandings of Man that have ever been recorded. It would be extremely difficult to make an overstatement on this subject. The Lectures of L. Ron Hubbard cover the Spirit of Man so completely and so far that it would likely be impossible to find another Being on this planet that would in any sincerity even begin to indicate that he could or would attempt to duplicate this work.

It is extremely doubtful and even more unlikely that any such understanding attempted by anyone over the past 350 trillion years have reached anywhere near the stage these have reached.

But L. Ron Hubbard is a Man and he is a writer. So he has written and his works are all available. But L. Ron Hubbard is also a man who can explain what he has written and he is a man that is completely honest as to what he has written. These qualities, combined with the fact that L. Ron Hubbard is able to speak with the clarity of his written works, give us a man that is probably again without doubt, the most lucid and capable lecturer that has walked this planet.

There are thousands of hours of lectures which have been recorded of Ron's talks to Scientology Congresses, Public groups, and to the Students of Scientology which have come to learn how to audit at the Founding Church of Scientology and at other Scientology and Dianetic Organizations all over the world.

His lectures have been played over and over by thousands of people. And the actual number of hours that have been spent in listening to these lectures would be difficult to compute - it would without any fear of overestimation, run into the millions of hours of Earth time.

This catalog covers three years. There remain ten years of lectures to be fully cataloged. Further volumes will cover these.

ARC AND ARC BREAKS

Recently Ron gave a lecture in which he re-defined Affinity, Reality and Communication. It was apparent from his words that the three foundation stones of Scientology, and life itself, had much wider connotations than the majority of us had ever realised.

We are learning a great deal more about ARC breaks and their magnitude. Fortunately we have the techniques to eradicate them and quickly, and if anyone who has an ARC break with anything or anyone goes to their nearest Org. they can be sure that the modern processes will handle them.

In view of the fact that ARC is so much, indeed the whole of life, why do ARC breaks occur and why are they so ferocious? The answer is by-passed charge. This may be understood by a study of recent bulletins and is not possible to fully explain within the purpose of this letter. My interest is to point out the vital necessity of recognising an ARC break as stemming from some charged up area in the individual, which has been missed or lost, or glossed over in auditing or life, and to ask you to give yourself the opportunity of re-assessing viewpoints which have become disturbed through the said by-passed charge.

This particularly addresses those who have ARC breaks from Scientology. So please don't waste your valuable training but get into condition to use it. Have the by-passed charge cleaned. This you can get done from your local Org. Then enrol for the Special Briefing Course here at Saint Hill Manor.

Write me about the Briefing Course. I will tell you how to enrol, get here and give you information about accommodation. Don't let ARC breaks hold you back from reaping the benefits of thirteen years of research.
