## PHILOSOPHY WINS AFTER 2000 YEARS

By Tom Esterbrook

Philosophy did not die with Ancient Greece.

Out of the Natural Philosophy of those times came Science.

The wonders of chrome and metal cars, planes, the atom bomb and even the satellites have their roots in the firm base of Greek Philosophy.

But Socrates, Aristotle, Euclid, Thales, Heraclitus, Parmenides, Democritus, Pythagoras, Plato, Anaxagoras, Lucretius and all the rest did not have in mind the manufacture of material things when they released their knowledge to the world.

Even though all these great things developed out of Greek thought and mathematics, the great names of philosophy considered they had failed.

And so they had. Until today.

For their philosophic goal was the understanding of the spirit of Man and his relationship to the universe. And they could only speculate upon it. They never proved their contention that Man was a spirit clothed in flesh, they could only assert it.

And so they drowned in the avalanche of superstition which engulfed the world in the Dark Ages.

Why did they fail? They needed the higher mathematics and electronics which would, over two thousand years later, develop their philosophies.

These were developed. But they were used for different purposes than those intended, and Man turned his back upon their lofty dreams while building planes to bomb cities and atom bombs to wipe out the Mankind no one had ever understood.

Until Scientology.

And in it the goals of Greek Philosophy live again.

Using modern developments in the sciences, it became possible to approach again the basic problems: What is Man? What is his relationship to the Universe? What is the Universe?

Scientology, after a third of a century of careful research and investigation can answer, with scientific truth those questions and prove the answers.

This is rather startling.

We have come so far from Thales, Heraclitus, Parmenides and Democritus that we have almost forgotten what they were trying to discover. But if you consult writings of the work they did over two thousand years ago you will see what it was.

They wanted Man to know. They did not fail. They laid the ancient Greeks a firm foundation on which to build. And two thousand and more years later we can furnish all the evidence they need.

And that evidence and its truths and its great potential of betterment for the individual and all Mankind are completed work today in Scientology.

We have reached the star they saw. And we know what it is. You'll find its value when you become a Scientologist, a being who has come to know himself, life and the Universe and can give a hand to those around him to reach the stars.

## Scientology Answers

Man has asked a great many questions about himself.

Such questions are "Who am I?" "Where do I come from?" "What is Death?" "Is there a Hereafter?"

Any child asks these questions, yet Man has never had answers that long satisfied him.

Religions have various answers to these questions and they belong in fact in the field of religious philosophy, since this is the area of Man's knowledge that has sought to answer them.

Answers have varied through the ages and race to race and this variation alone is the stumbling block which brings disbelief into faiths. Old religions fade because people no longer find their answers to the above questions real.

The decline of Christianity is marked by modern cynicism about a Hell where one burns for an eternity and a Heaven where one plays a harp forever.

Materialistic sciences have sought to invalidate the entire field by shrugging the problem off with the equally impossible answers that one is merely meat and all life arose by spontaneous and accidental combustion from a sea of ammonia. Such "answers" sound more like pre-Buddhist India where the world was said to be carried on seven pillars that stood on seven pillars which stood on a turtle and, in exasperation to the child's question as to what the turtle stood on, "Mud! And it's mud from there on down!"

It is the nature of Truth that if one knows it, even more things get understood. The disease and decay of Asia tends to invalidate their concepts as Truth and in the West, war, where soldiers saw "Gott Mit Uns" on the slain enemy belt buckles tended to end the domination of the churches of those times—for God could not be on both sides of such Devil's work, or so the soldiers reasoned.

## Scientology Answers (continued)

Even Christ's great commandment of "Love thy neighbour" seems to have less force today in a world of income tax, inflation and the slaughter of civil populations in the name of peace.

So without in any way condemning or scorning any man's beliefs, Scientology arose from the ashes of a spiritless science and again asked—and answered—the eternal questions.

That the answers have the force of truth is attested by the results. Instead of the sickness of religious India, Scientologists are seldom ill. Instead of internal warfare such as the riots of Alexandria, Scientologists live in relative harmony with each other and have skills that restore relations rapidly.

The world tends to attack new things and Scientology has had its share from vested interest groups and governments but it keeps rising eventually victorious from each clash without bitterness.

Various interesting results proceed from the practice of Scientology. One's intelligence increases and one's ability to handle his problems is markedly bettered.

One does not have to study Scientology very long to know that one does not have to die to find out what he is going after death, for one can experience it for himself with no persuasion or hypnotism or h.

Scientology is different mainly because one doesn't have to believe in it to have it work. Its truths are of the order of "Is this black?" "Is this white?" You can see for yourself something is black if it's black and that something is white when it's white.

No tricks of logic are needed to prove any point and Scientologists only ask people to look for themselves.

Thus, along with science, Scientology can achieve positive invariable results. Given the same conditions, one always gets the same results. And anyone given the same conditions can obtain the same results.

What has happened is the superstition has been subtracted from spiritual studies. And today this is a very acceptable state of affairs to Man.

The ultimate freedom depends on knowing the ultimate Truth. Truth is not what people say it is, it is what it is. And Truth, quite remarkably, sets one free, just like philosophers have said down the ages.

What the philosophers did not say was how free can one get? And that is the surprise contained in Scientology for everyone who walks the Road to Truth—one can be totally free.

Naturally this makes no friendly news to the person who wants slaves and Fascistic, Capitalistic and even some more liberal creeds forbid that utterly, for who could be a master, so they think, where no slave wears his chains? They miss the point entirely, for who has to be a master?

When you yourself hold the Truth the shadows by which you are bound tend to slither away.

And when you at last know for yourself in your own experience that Scientology does have the answers, and when you have applied them, you have the result all philosophers, savants, sages and saviours have always dreamed of—and freedom as well.

As much of Scientology is true for you as you know of it, those who know it only by name react to the hope of it. And as one advances upon the road, one knows more and more of it and is more and more free. Unlike so many promises made to man and which have made him fear disappointment, Scientology delivers. It may be over a rough road. It may be over a smooth one. But Scientology eventually delivers all it says it can.

And that is what is new about it and why it grows. No other religion ever given Man delivered. They all waited until after the end for one to find his harp or his Nirvana.

For the first time in all the ages there is something that within one lifetime delivers the answers to the eternal questions and delivers immortality as well.

## L. RON HUBBARD

Scientology was developed by L. Ron Hubbard, an American writer and philosopher.

It was completed after 35 years of research.

Hubbard was born in Tilden, Nebraska, March 13, 1911.

Much of Hubbard's early youth was spent in the American West and he travelled extensively in Asia as a young man.

He studied Science and Mathematics at George Washington University, graduating from Columbian College. He attended the Princetown University and obtained a degree as Doctor of Philosophy (Ph.D.) from Sequoia University.

Before World War II he was well known in explorational circles and is to this day a member of the Explorer's Club.

He wrote and published over 15,000,000 words of articles and novels of all kinds before World War II.

During that war he served as a commander of corvettes and was extensively decorated.

Crippled and blind at the end of the war, he resumed

his studies of philosophy and by his discoveries recovered so fully that he was re-classified in 1949 for full combat duty. It is a matter of medical record that he has twice been pronounced dead and that in 1950 he was given a perfect score on mental and physical fitness reports.

Revolted by war and Man's inhumanity to Man, he resigned his commission rather than assist government research projects.

He published his original thesis on his work and the startling popularity of a thesis brought publishers to offer him a contract for a popular work on the subject which in 1950 soared to the top of the best-seller lists and stayed there.

Hubbard has a lovely wife, Mary Sue Hubbard, and four charming children.

Unlike any other philosopher in any age, Hubbard has led a very full and adventurous life. He has been the hero in numerous novels and even of a famous motion picture.

Probably no philosopher of modern times has had the popularity and appeal of Hubbard or such startling successes within his own lifetime. And Mankind has had no better friend.

## THE AIMS OF SCIENTOLOGY

*A civilization without insanity, without criminals and without war, where the able can prosper and honest beings can have rights, and where Man is free to rise to greater heights, are the aims of Scientology.*

*First announced to an enturbulated world fifteen years ago, these aims are well within the grasp of our technology.*

*Non-political in nature, Scientology welcomes any individual of any creed, race or nation.*

*We seek no revolution. We seek only evolution to higher states of being for the individual and for Society.*

*We are achieving our aims.*

*After endless millenia of ignorance about himself, his mind and the Universe, a breakthrough has been made for Man.*

*Other efforts Man has made have been surpassed.*

*The combined truths of Fifty Thousand years of thinking men, distilled and amplified by new discoveries about Man, have made for this success.*

*We welcome you to Scientology. We only expect of you your help in achieving our aims and helping others. We expect you to be helped.*

*Scientology is the most vital movement on Earth today.*

*In a turbulent world, the job is not easy. But then, if it were, we wouldn't have to be doing it.*

*We respect Man and believe he is worthy of help. We respect you and believe you, too, can help.*

*Scientology does not owe its help. We have done nothing to cause us to propitiate. Had we done so, we would not now be bright enough to do what we are doing.*

*Man suspects all offers of help. He has often been betrayed, his confidence shattered. Too frequently he has given his trust and been betrayed. We may err, for we build a world with broken straws. But we will never betray your faith in us so long as you are one of us.*

*The sun never sets on Scientology.*

*And may a new day dawn for you, for those you love and for Man.*

*Our aims are simple if great.*

*And we will succeed, and are succeeding at each new revolution of the Earth.*

*Your help is acceptable to us.*

*Our help is yours.*

# What Scientology Can Do For You

All that scientology has to offer is understanding. What a simple statement that is and yet that one word, understanding, is the key to all of man's problems and opens the door to a future without fear, without sorrow, and without suffering.

Well, I'm not a very good philosopher, but I think I can give you a rough idea of what I mean. I think that the world is a very strange place, and that we are all in it together, and that we are all trying to understand it. I think that the world is a very strange place, and that we are all in it together, and that we are all trying to understand it. I think that the world is a very strange place, and that we are all in it together, and that we are all trying to understand it.

follows then, that if man has consistently tried to extend himself, and his mind, there must be some terrible defect. If it was not it is hardly conceivable after all these thousands of years man would still be in the same position. And the only way to understand this is to understand that the only way to understand

is the road that scientology follows and by following that road, by refusing to deviate from that road, matter what, no matter what problems, "traditions" to be discarded, no matter what opposition be incurred. L. Ron Hubbard has broken through the nearly insurmountable barriers that have frustrated attempts to understand the human mind. And it is with this understanding of life, that Scientology, you through its technology of processing and

Example, for my first audience I came up to Saint Ignace and walked into a room full of people and I felt, actually, that everyone was watching me and sort of catching me up. I felt very self-conscious, but even being audited on a level (two hours) I came back to the same room and the same crowd of people and I lay down and wrote out a report on how I felt after auditing. I felt at ease and this made me very confident for the next case and this made me very confident for the next case and this made me very confident for the next case.

My introduction to Scientology was very interesting. I was at the age of 24 a qualified lecturer in the Air Force Education Branch and also a command officer with two pilots. I had studied and specialised in the sciences and was teaching Physics and Mathematics. I had additional qualifications in Chemistry and Biology. My route to Scientology in Canada was through a friend who was a member of the Church. He invited me to a meeting at the local Scientology Centre. I attended the meeting and was very interested in the subject and for the sake of the other people in the room DEREK BISHOP, East Grinstead, Sussex, gave me a copy of the book "The Way to Zenith".

Behind me lay a very successful record as a businessman. My colleagues were hand-picked men at research. I had joined what was intended to be an outfit for inter-disciplinary research. Biological, Chemical, Biological and other Warfare and I had a thorough grounding in subjects. One day I suddenly realized that all I was doing was purposeless and I was only doing it for the sake of the subjects.

Before entering the service I had spent ten years studying for some time and working in many subjects including Mathematics and Theology, Psychology, Philosophy, History, Occultism, which I also studied and read all the references I was well read and yet had found this person I met had been found in the same way. # GO TO YOUR SCIENTOLOGY FOUNDATION

As a public service every main Scientology Organization including Saint Hill has a Scientology Foundation. The Foundation is open evenings and in some places on weekends to provide the services of Scientology to those people who are busy during the day.

Scientology services include:

**BOOK SALES** - The over-forty Scientology publications contain all the data about life and Applied Philosophy. Here you find practical information about life that you can apply to your own livingness and increase your survival.

**THE CHAPLAIN** - A trained Scientologist who is an expert in personal and spiritual guidance who will give you concise and workable advice about your problems.

**RECEPTION CENTRE** - A place where you can go to seek more information about Scientology, talk to Scientologists, meet people and make new friends.

**INTRODUCTORY LECTURES AND COURSES** - These are given every evening and sometimes on weekends. Simply drop by in the evening (Monday evening for a course). This is often the most direct way to learn about Scientology.

**ADVANCED COURSES** - For the person who has certainty that he or she wants to learn how to handle life rather than be the effect of life. See the Registrar for more information.

**PROCESSING** - The fastest and most effective way of changing things, increasing I.Q. and ability and reaching higher states of existence. Processing is the application of modern techniques which result in releasing the individual and restoring freedom of mind and spirit. For more information see the Registrar.

The Foundation is the entrance point for those new to Scientology. You may visit it as often as you wish and your family and friends are always welcome. It is staffed by Scientologists who work at other jobs during the day and take on a part-time Foundation job evenings or weekends to service others who work or have other duties during the day.

When you come to the Foundation, see the Receptionist who will direct you to the person who can best serve you. Many Foundation services are not charged for, some have a small fee. The address of your nearest Foundation is on the back page. Don't hesitate. Simply drop in. You are always welcome.
