and full security is to be kept in.

Study Tech Full application of all Study Tech per The Student Hat must be
used throughout this course.

Materials The student is to obtain his own materials for use on this course.
He will need:

- SCN 0-8
- The December Lecture Charts of L. Ron Hubbard
 - Science of Survival (with Chart of Human Evaluation) (SOS) X
 - Dianetics and Scientology Technical Dictionary
 - Creation of Human Ability (COHA)
 - Scientology 8-80 (SCN 8-80)
 - Fundamentals of Thought (FOT)
 - Scientology 8-8008 (SCN 8-8008)
 - Handbook for Preclears (with Chart of Attitudes) (HFP)
 - Self Analysis (SA)
 - Phoenix Lectures (PXL)

Purpose To train a Pre-OT on being OT and to refamiliarize him with his
abilities as an OT.

- Note 1. Throughout the duration of the course the student is to apply
the data he is learning in life. Write up any experiences you
have on applying the data and turn them in to the supervisor.
2. At the end of the course, the student will be doing some drills
based on the lectures. These drills will be done solo. So the
actual details of doing the steps of Standard Operating Procedure

should be noted accurately and fully understood by the student as he listens to the tapes, as he will need this data to put it into application at the end of the course.

3. Above all, accept this data as ^{an}hatting on being OT. Relate the theory to your experience. Think of examples. Try it out. Use other people when you need to, to make a datum more real to yourself. You are not going to hurt yourself with this data, so enjoy it and use it. Here it is to a higher level of cause and certainty for you. X

E. THE PHILADELPHIA DOCTORATE LECTURES

E.1 Note You will need to have a copy of The December Lecture Charts of L. Ron Hubbard near you as you listen to these lectures. Refer to his drawings as he lectures.

E.2 Note In the course of the lectures that follow, LRH occasionally gives the class a drill to do during the lecture. You are to do these drills as you listen to the tape.

E.3 Note Take good notes on doingness details of the procedures for the Standard Operating Procedure levels, for later reference.

1.4 Essay Give an example of some situation you have encountered where more data about life would have enabled you to handle it better.

1.5 Demo The difference between "natural law" and "the agreement which made the 'natural law'".

1.6 Drill Walk around looking at people and notice how their bodies identify them to you to a win.

1.7 Drill Think of a time when you felt you had to win something, and lost. Think of a time when you weren't worried about whether you won or lost, and won. Write down what you thought of. Take the drill to a win.

1.8 HCO B 26. Oct 70 III Obnosis and the Tone Scala

2.5 Drill With a twin, have a brief conversation in which no statement relates to any other statement made, until you are more aware of disassociation.

2.6 Drill Recall a few times when you or someone else was having trouble because you or that person was assuming two things were the same when they weren't. Do this until association is more real to you.

2.7 Drill Write an essay "proving" with "logical" reasoning the statement that "All horses sleep in beds".

2.8 Drill Take two objects that are very similar (such as two blue pens, or two "identical" buttons) and notice all the differences you can find between them, to a win.

2.9 Demo Why a willingness to both create and destroy is necessary to sanity.

4.2 Tape 5212C02 - PDC 4 2. Dec 52
Lock, Secondaries, Engrams, How to Handle

4.3 Drill Think of an area where something runs automatically for you. Notice how responsible you feel for the area. Then get the idea of taking full control of *the actions* that area. What happens to your feeling of responsibility? Think of an area where you are on full control. How much of that area runs automatically? Continue the drill to a cog or a win. X

4.4 Drill Look around the room and notice the space and objects in it. Then get the idea of abandoning half of the things in the space. What happen to your awareness? Recall a time you did abandon a space or object. What happened to your awareness? Recall a time when you did take control of a larger sphere of space and objects. What happened to your awareness? *then* Now notice how much space you normally feel you control. Assume that you have control of more space and objects than that. What happened to your awareness when you did that? Write down your observations. Continue drilling this way if you need to, to take it to a win. X

5. PDC TAPE 5

5.1 Tape 5212C02 - PDC 5 2. Dec 52
Gradient Scale of Handling Space, Energie and Objects

5.2 Drill Look around the MEST environment and find something that you would mock up differently if it were in your own universe. Continue doing this until you can do easily and feel good about it.

5.3 Clay Demo What leads a thetan to believe he has "lost his punch".

5.4 Drill Put a mock up out in the center of the room and make it do something it could not do in the MEST universe (make it disobey "natural laws"). Do this until you feel good about it, and can do it easily.

5.5 Drill Look at the table. Notice your own action of putting the perception there. Look at your hand. Notice your action of putting that perception there. Touch the table and notice your own action of putting the feeling there to perceive. Continue the drill untill
