SECTION 5 - INTERNAL SECURITY

to started _____ Date completed _____

This portion of the checksheet contains the most vital data you need to know about Branch II. As Branch II is the portion of the Guardian's Office which probably comes into most contact with the Org in policing that policies are applied, you are advised to make yourself familiar with more policy than is contained herein. The policy sections which will be of most help are those in Volume 1 OHC on Ethics, including data on refunds, petition, appeal, further background data on Freeloaders, 2-D, Third Party, etc. You will find that you will probably have to research policy further as you handle your post, which is fine. An additional hat on all the useful PLs, HCO Es that you come up with in the course of your post is a valuable asset.
